

Smooth and Easy.

Being out on the trail or in the powder, for work or play, is one of life's great feelings - creating emotional moments to linger long in the memory - so enjoy our snowmobiles. Each one is designed to deliver world-beating performance, unmatched handling and supreme comfort - with economy and reliability.

These advantages form the winning combination you can depend on from your Yamaha. They come as standard, along with the innovative engineering and electronic control technologies that bring you and your machine close together as a unit – creating a more satisfying riding experience than ever before.

So wherever you ride – on smooth or rough trails, in soft powder or up at high altitudes – choose the perfect partner. Your Yamaha.

- Novi 2-taktni 1-valjni agregat EFI s prostornino 397 cm³
- Pogonski sistem CVTech Drive System z izredno nizko 1. prestavo
- Nova ultralahka šasija za izjemno okretnost
- Sistem 146-palčnega delovnega vzmetenja z dvžnimi vodili
- Lahko 38-palčno sprednje vzmetenje SRV
- Gosenice 146 × 1,6 Cobra – za najboljši oprijem in pogon
- Nove široke smuči Yamaha Mountain z enojnim vodikom
- Velik 44-litrski rezervoar za gorivo za daljše delovne poti
- Vzratna vožnja in električni zagon se aktivirata s pritiskom gumba
- Visok, udoben sedež in visoko krmilo
- Nastavljivi grelniki krmila in palcev
- Elegantni digitalni merilniki in visok, oblikovan vizir

Smooth and Easy.

Created to make life easier for outdoorsmen and people with snow-related businesses, this mid-size sled comes with a surprisingly full-size work ethic. And although it is designed mainly as a partner to get tough towing and hauling jobs done, its great handling and performance mean you can enjoy it too!

At its heart is our remarkable fuel-injected 397cc 2-stroke power unit, punching out around 65 smooth horsepower - with businesslike amounts of brutal torque. In fact, its performance level is perfectly matched to the cutting-edge design of the chassis, suspension, track and skis.

Mid-size it might be, but the on-board luxury and comfort are truly full-size! Practical too, with electric start, push-button electronic reverse, adjustable hand and thumb warmers and clear digital gauges to keep you up to speed. In fact, a mighty impressive all-rounder to add to your workforce.

Transporter Lite

397cc 2-stroke engine with EFI

This 2-stroke unit, with its efficient EFI system, punches out around 65 very lively horsepower. With such a lightweight engine (under 50 lbs) partnering such a lightweight machine, the result is a power-to-weight ratio that promises a really workmanlike performance, along with great manoeuvrability for towing and hauling.

Ultra-lightweight chassis design

The latest-technology alloy chassis has been designed to take full advantage of the responsive, free-revving engine. The main focus during development was on saving weight without compromising the strength and durability needed for a true workhorse, so this innovative machine offers very docile handling, razor-sharp agility and a comfortable, balanced ride.

146" suspension with flip-up rails

The long-travel 12.5" suspension features a hinged, spring-loaded tail section that allows the rear idler wheels to hinge upwards on bumpy trails, so the handling feels more like a shorter-track model. When additional traction is needed, the unique flip-rail lock-out feature locks the tail section straight, to maximise the rigid rail length acting on the trail.

Sleek, light 38" SRV front suspension

A direct descendent of our sleek SRV-M suspension, this system is not only ultra-lightweight, but its compact design reduces the unwanted drag of suspension components in deep snow. The neutral stance delivers great manoeuvrability in tight terrain, while still showing polite and predictable manners on the trail.

Mountain skis and lightweight spindles

The lightweight, forged aluminium suspension spindles and wide-spaced control arms give a large caster angle for tight turns and easy steering - a format specially designed to complement the wide 7" footprint of the high-flotation, single-keel Yamaha Mountain skis. The result is a working partner that offers you unmatched handling precision in deep snow and on hard pack.

146 x 1.6 Cobra track - for real grip

The perfect match for our mid-size Transporter Lite when performing in its tough utility role, the well proven Cobra 146 x 1.6 track really puts the power down. In fact, it delivers stunning performance in all conditions, with outstanding levels of deep-snow grip and propulsion. So load-carrying and towing can now become a pleasure instead of a chore.

Agregat

Tip / Prostornina	2 Stroke / 397 cc
Valji	1-valjni
Hlajenje	Tekočinsko hlajen
Vrtina x gib	85,0 mm x 70,0 mm
Uplinjanje	Electronic injection
Oblikovanje sistema za dovod zraka	Batni cevni ventili
Sistem vžiga	Digitally Controlled CDI
Izpuh	APV with tuned pipe
Sklopka / menjalnik	Team Rapid / Reverse push Button Engine
Disk zavorni sistem	Hidravlični glavni valj Stealth z lahkimi zavornimi čeljustmi

Vzmetenje

Sistem prednjega vzmetenja	SRV-M New Spindle
Prednje vzmetenje	Hydraulic Twin Tube
Hod prednjega vzmetenja	183 mm
Sistem zadnjega vzmetenja	Blažilni sistem Dual Shock SR 146 s torzijskimi vzmetmi in preklonnimi drogovi
Zadnje vzmetenje	Hydraulic Twin Tube / Hydraulic Twin Tube
Hod zadnjega vzmetenja	317,5 mm

Mere / Dimenzije

Skupna višina	1,283 mm
Skupna dolžina	3,251 mm
Skupna širina	1,170 mm
Gosenica Š x D x V (inči)	15 " x 146 " x 1,6 "
Gosenica Š x D x V (mm)	382 mm x 3,708 mm x 41 mm
Tip gosenice	Camso® Cobra
Razmik smuči (center do center)	965 mm adjustable
Prostornina rezervoarja za gorivo	44,3 L

Lastnosti

Električni zagon	Electric & Recoil
Vzratno	standardno
Gretje ročic & vzvoda plina	standardno
Moč prednje luči, vrsta	Enojni, halogenski, 60/55 W
DC izhod	Standardna oprema

Motorne sani so zasnovane tako, da delujejo znotraj meja svojih zmogljivosti. Priporočenih kapacitet, ki so navedene v uporabniškem priročniku, ne smete pod nobenimi pogoji prekoračiti, saj tako zagotovite trpežnost in zanesljivost vozila ter poskrbite za varnost voznika. Pri izbiranju motornih sani se obrnite na prodajalca, ki vam bo pomagal izbrati ustrezne sani za vaše potrebe.
